

Locators are ideally suited for precision indexing on fixtures which slide or rotate.

PLP12

Material: Heavy gauge steel
precision ground and
hardened casing and pin

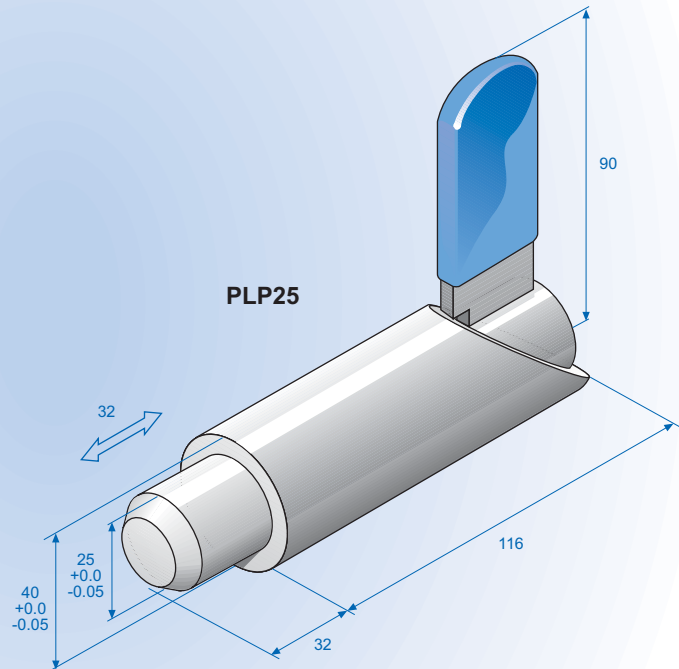

Weight: 0.15kg

PLP25

Material: Heavy gauge steel
precision ground and
hardened casing and pin

Weight: 1.1kg

PLP12A

For applications where high precision locating is not required the PLP12A may be more appropriate.

Material: Heavy gauge steel

Weight: 0.14kg
